

On the road to success!

RECOVERY - SUPPORT - ENERGY

GROWTH-ENERGY-MOULTING MIX

A MULTI-FUNCTIONAL SUPPLEMENT FOR REARING OR GIVING A POWER BOOST, WHICH YOU CAN USE THROUGH DIFFERENT SEASONS.

- A balanced nutritional supplement for the mixture, which contains the required extra proteins and fats.
- Contains vitamins, minerals and oligo elements that meet a pigeon's daily requirements.
- Pigeons are keen to eat it in addition to the daily mixture.
- Provides essential amino acids during moulting and when building up optimal condition in future breeders and racers.
- Makes young birds with the squirts around the nest bowl a thing of the past and ensures that they develop strongly.

Crude protein	17,4 %
Crude fat	14,9 %
Crude fibre	4,7 %
Crude ash	4,3 %

Instructions:

165 gr / 1 kg feed (or 5 gr/pigeon per day)

330 gr / 1 kg feed (or 10 gr/pigeon per day during breeding season with nestlings)
up to 50% of the daily ration

- During winter/rest: 2 or 3 x per week **combined** with mixture.
- During racing season: upon arrival back home **combined** with the first feeds and **as a dessert after** the 3 or 4 last feeds up to basketing.
- During moulting season: 2 or 3 x per week **combined** with the moulting mixture, optionally moistened with BEYERS PLUS Amino Plus or Energy Oil.
- During breeding season: 2 or 3 x per week **combined** with the breeding mixture, optionally moistened with BEYERS PLUS E-Vitol, Amino Plus or Energy Oil.
- Youngsters (after weaning until the start of the racing season) – daily, **combined** with the mixture.
